Personal Observations of Cruelties in Congo Free State.

MUTILATE PRISONERS' BODIES. DEADLOCK IS PROBABLE.

Presbyterian Minister Declares That One of Their Missionaries Counted 81 Hands Which Had Been Cut Off.

Louisville, Ky., April 5.-Doctor William M. Morrison, a Southern Presbyterian minister to the Congo Free State, in speaking to the Presbyterian Ministers' As sociation here, gave an impressive recital of the alleged barbarities practiced on the natives of the Congo State by those holding the power, and of the obstacles thrown in the way of their correction by the au-

thorities

"I lived with the people for seven years. I know what I am talking about," said Doctor Morrison. "Leopold has there a native cannibal army of 20,000 men, of-ficered by white Belgians and armed with repeating rifles. These men, representing the worst and most savage type of the natives, were first caught, then carried far away from their homes and forced into this military service. There in turn, this cannibal soldiery is used to compel the natives to bring in enormous tribute of ivory and India rubber. It is worth noting that the King of Belgium is to-day reputed to be the largest dealer in ivory and rubber in the world

EAT HUMAN BEINGS. "As a result of this forced labor and nilitary service, great and enspeakable cruelties are practiced on the native people. I have seen, a number of times at least \$5,000 fleeing into the forests to escape from the cannibal soldiers of king Leopold. I have seen these soldiers acouring through the forests, and, after catching a number of men whom the Government wanted as laborers, going away with the captives tied together by ropes around their necks. Raids upon villages are being constantly made. Some of the people are killed and eaton, others are carried away into captivity and sold, others are forced into labor and military service. I can buy all the shaves you want at Luebo at from \$10 to \$15 aplece.

"When these raids are made, the most awful cruelties are practiced innocent women and children are killed or captured, hands are cut off to be taken back to the white Belgian officers to show that the work has been well done and great sections are being depopulated.

HANDS CUT OFF. crucitles are practiced on the native peo-

missionaries went to the scene and counted eighty-one hands cut off and drying
over a fire, to be taken back to the Belgian officer. Forty-five dead bodies were
counted lying near by.

"The Belgian Government makes the
usual stereotyped derial of all these
charges. I have seen personally the Governor of the Congo State. He won't do
anything. I have been in the palace of
the King of Belgium, and have seen the
most prominent officials of the Congo
Government. They won't do anything. The
English Government is greatly interested in the situation. At the request of
Lord Lansdowne, I preferred a statement
of such outrages as had come under my
own observation.

"Conaul Roger Casement, who, as English and acting American representative
in the Songo Btate, has just made a tour
of investigation, and his report in the
hands of our Government at Washington presented a most deplorable situation of affairs.

"As a Government, we do owe something to the 30,000,000 black people in the
Congo State. What are we going to do?"

### HELD IN JAIL ON CHARGE OF LURING BOY FROM HOME.

J. W. Ryan Admits Making Promises to Arthur Miller of Waterloo, Ill., and Begs for Leniency.

REPUBLIC SPECIAL. Waterloo, Ill., April 5 .- J. W. Ryan was to-day sent to jail in default of \$500 bell after his preliminary hearing on the charge of inducing Arthur Miller, aged 11 years, to leave home without the consent

The Miller boy was the principal witess. He said that Ryan paid him to carry a grip to several places in the town while Ryan sharpened knives and lawn mowers. When Ryan got ready to leave town, the boy asserted, he took the young ster by the arm and, with threats and persuasion, induced him to go along. A promise to take the boy to the World's Fair and buy him a new suit finally won his consent to the arrangement.

Ryan did not deny these and other promises, but asserted that the hoy went of his own suggestion, saying that his home surroundings were not agreeable. Ryan begged the Judge to release him, promising to abstain from drink. ry a grip to several places in the town

#### WORKING TO UNITE TWO METHODIST CHURCHES

Baltimore Conference Will Present Resolutions to the Protestant Conference.

Baltimore, April 5-Resolutions have Baltimore. April 5.—Resolutions have been formulated by the Baltimore Conference of the Methodist Episcopal Church, now in annual meeting here, recommending the appointment of a commission to meet a like commission of the Mothodist Protestant Conference, which will meet here to-morrow, looking to the unification of the two Methodist churches of the country. It is thought that both propositions will be accepted by the Baltimore conferences. They will be sent up to the General conferences of the two churches.

## SEVERAL STATES MAY SUPPORT COCKRELL

Doctor William Morrison Gives Missouri Delegation in Congress Is Working Hard for His Nomination.

In This Event, It Is Believed, Senator's Chances Would Be Second to Those of No. Other Democrat.

16th St. and Pennsylvania Ave. Washington, April 5.—"We propose to ote for Cockrell on the first ballot and leep on voting for him until the last bal lot." declared Representative Lloyd of Missouri, in conversation with several Democrats, who were grouped on the floor before the House met this morning. Mr. Lloyd subsequently said that he beleves that he expresses the sentiment of

Missouri, with reference to a presidential

nomination. Expressions of a like nature are uttered by the Missourians in Washington, when-ever the subject of a nomination comes up for discussion. They expect that this feeling will characterize the delegates who may be sent to the convention and they nean that their influence will be used to

R. L. Owen, a leading Democrat of Indian Territory, who is in Washington, declares that the delegates from the Territory will cast its votes for the Senior Missouri Senator. Oklahoma, it is understood, has leanings toward Hearst, but a chance of getting that vote exists. Senstor Cockrell also has friends in Arkansas and the expectation is that that State

thirty-six. The weathervane of politics now seems to point toward Parker of New York. The greater forces which shape presidential nominations in the Democratic party, those forces which dominate the attitude of the South and of New York, bid fair to

unite open the New York Judge. Senator Gorman, it is announced, with all the definiteness which falls the least bit short of absolute certainty, has retired from the race, and has consented to the choice of Parker, if the latter ob- sistance, they were disarmed, tains the united indersement of New York's delegation.

But the Missourians do not regard the question as absolutely settled. Tammany Hall seems to have relaxed somewhat in its negative attitude toward David B. Hill's choice, but the pipe of peace and unity has not been smoked officially and openly. Neither is the strength of Hearst as yet a quantity which can be calculated upon with safety. Under such circumstances, Missourians think that a deadlock may very readily occur in the coming convention, a solution of which can be found in the selection of Senator Cockrell.

It is presumed that one of the men, who was shipping clerk in the shee factory, had the dynamite sent in to the shoe shop, and then took care of it when it arrived.

It was the evident intention of the men to use the dynamite in wrecking the wall of the stockade and then escape through the breach.

The President, it is understood, entered a disclaimer in terms quite as emphatic as those used by Stubbs of Kansas in presenting the proposition. It is reported that Mr. Roosevelt asserted that, to the best of his recollection, William Allen White of Emporia first called his attention to the matter. It is declared, too, that the President has written to Mr. White asking whether he was the man.

This much of the interview concluded, Stubbs of Kansas appeared to be highly pleased. It is told also that then the President wanted to know in some detail just how Kansas had been captured by railroad-contractor methods, how the Bailey gang and the Statehouse machine had been routed and sent pellmell into the tail grass of retirement. When the story was told, it is understood that the President gave his indorsement to the Hoch revolt and commissioned Stubbs to return home and wage the campaign in the hottest fashion possible.
